COMPETITIONS

SEE OUR INCREDIBLE RECORD

Homestead FBLA

hhsfbla.com

As one of three technology officer for the most competitively successful Future Business Leaders of America chapter, I was handed a legacy WordPress site and tasked with keeping it updated over three years. During that time, I added several features as requested by other officers on our team and improved transparency.

Homestead Programming

hhsprogramming.com

I worked with other HHS Programming Club officers to build this site from scratch over a summer. Some of my contributions include adding functionality to upload and test solutions for algorithmic challenge problems as well as the ability for the site to hold CTF-related tutorials.

Monday	4:00PM - 12:00AM
Tuesday	4:00PM - 11:00PM
Wednesday	4:00PM - 11:00PM
Thursday	4:00PM - 12:00AM
Friday	2:00PM - 10:00PM
Saturday	10:00AM - 2:00AM
Sunday	10:00AM - 1:00AM

Spaceland (mock)

spaceland.hhsfbla.com

As part of the team for the 2017 FBLA Website Design competition, I was to develop a site advertising a Family Entertainment Center. As such, emphasis was put on creating an aesthetic site without functionality. An emphasis on the business influence on our design choices was required for our presentation.

About Site

- Built in 3 days
- Used Bootstrap Framework
- Drew extensive wireframes

we make makers

and we are making technology education accessible to everyone.

TechLab Education

techlab.education

Interning at TechLab Education for two summers and acting as one of three lead instructors for my third summer, I got the opportunity to help improve and test this makerspace's website. During my time there, I've taught over 150 students ages 6 to 19 in various computer science and engineering topics.

Homestead CSF

After discussing the expectations and drawing wireframes with a Homestead CSF officer, I helped design the website with a fully-functioning backend capable of tracking member volunteer hours and effectively communicating important event information.

Contributions

- Database for tracking all member hours
- Email notifications for events
